

# MELANCHOLIA

## A PAIR OF SWEDISH GRACE BRASS WALL SCONES

A pair of brass wall sconces designed by Lars Holmström in the Swedish Grace style and made in Arvika. Each sconce has a stepped, geometric backplate with crisp lines that lead to a pair of flared, trumpet-like lights, creating a harmonious, symmetrical profile. The warm brass surfaces have a soft sheen that emphasises the controlled, architectural forms, giving the pair a refined presence on the wall. The design balances clarity of structure with a subtly decorative edge, suited to both classical and period interiors.
