## A SET OF NINE "VENTANA" GLASS VASES

A beautifully curated set of nine glass vases by Mona Morales Schildt for Kosta Boda, each one a small sculpture in colour and light. Hand-picked to work together as an impressive collection, the group spans rich emerald green, deep cobalt and turquoise blues, and glowing amber tones—creating an eye-catching rhythm when displayed as a cluster. The clear outer form frames the coloured inner core like a “window”, giving depth from every angle. Arrange them on a console or dining table for a refined, jewel-like statement of Swedish studio glass.
